The threshold (minimum mark) for B is set halfway between those for Grades A and C . The threshold (minimum mark) for $D$ is set halfway between those for Grades $C$ and $E$. The threshold (minimum mark) for $G$ is set as many marks below the $F$ threshold as the $E$ threshold is above it. Grade $A^{*}$ does not exist at the level of an individual component.

The thresholds for the syllabus are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The $\mathrm{A}^{*}$ threshold is calculated using the difference between $A$ and $B$ as a starting point.

The maximum total mark for this syllabus is 200.
The overall thresholds for the different grades were set as follows.
