## MARK SCHEME for the October/November 2014 series

## 0610 BIOLOGY

0610/62

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2014 series for most Cambridge IGCSE<sup>®</sup>, Cambridge International A and AS Level components and some Cambridge O Level components.

® IGCSE is the registered trademark of Cambridge International Examinations.

## Abbreviations used in the Mark Scheme

- ; separates marking points
- / separates alternatives within a marking point
- R reject
- I ignore (mark as if this material was not present)
- A accept (a less than ideal answer which should be marked correct)
- AW alternative wording
- <u>underline</u> words underlined must be present
- max indicates the maximum number of marks that can be awarded
- mark independently the second mark may be given even if the first mark is wrong
- A, S, P, L Axes, Size, Plots and Line for graphs
- O, S, D, L Outline, Size, Detail and Label for drawings
- (n)ecf (no) error carried forward
- () the word / phrase in brackets is not required, but sets the context
- ora or reverse argument.
- AVP any valid point

	1							
(c)	mass of fruit / extra	ct;		A size / amount / weight of extracts				
	volume of water (su	uspending fruit);						
	size / SA filter paper / AW; volume / concentration of hydrogen peroxide; tube size / depth (of hydrogen peroxide);							
				A amount of hydrog	gen peroxid	е		
	temperature;							
	any other correct co	ontrolled condition;		e.g. time to soak fill	e.g. time to soak filter paper in extract			
			max 2	I pH / light				
(d)	method to prepare	extracts of pepper;		A cut / chop / crush / grind / AW				
	Benedict's (reagen	t / solution);		A add to water / for A Fehling's / conne	add to water / form a solution Febling's / copper sulfate and sodium bydrovide			
	heat / boil;			A Clinistix			y aloxido	
	colour change from orange / red;	n <u>blue</u> / turquoise to green / yellow /		A 70 °C or more				
	safety factor – wate	er-bath / AW;	5	A goggles / tongs /	lab coat / ti	e hair back	: / tuck tie in	
(e) (i)	A – axes labelled <b>a</b>	nd scaled evenly:		x-axis: name of fruit	t			
	S – size;			<i>y</i> -axis: sugar content I orientation	nt /g per 10	)0 g		
	P – all bars plotted accurately $\pm \frac{1}{2}$ small square; B – bars not touching, of equal width and equally spaced:			nlots to fill half or n	nore than h	alf of orid a	along both aves	
				A points for line gra	origin and f	irst bar	along both anes	
	-1,		4	other graphs (e.g. h only)	nistogram / I	line graph)	= max 3 ( <b>A</b> , <b>S</b> and <b>P</b>

(ii)	15 ÷ 2.7; 6 (times);	2	<ul> <li>A. answer to the nearest whole number correct answer = 2 if no working shown.</li> <li>I. units e.g. g</li> <li>I. 15 - 2.7 = 12.3 g</li> </ul>
		[Total: 18]	

2	(a)	<b>O</b> – outline is single clear line (and no shading anywhere);		I minor overlaps or breaks
		<b>S</b> – size;		drawing larger than 90 mm (length from top of shoot to tip) <b>R</b> If drawing touches / extends into printed words
				minimum detail is two layers, central core and outer layer
		<b>D</b> – detail of layers and proportion;		label line must make contact with structure
		L – label the site of attachment for leaves;	4	
	(b)	iodine in KI solution / iodine solution or reagent (to cut surface);		A drops of iodine
		(If starch present) brown / orange / yellow to blue / black / AW;	2

()			
(C)	measurement of SI: $13 \pm 1 (mm)$ ;		A if answer is recorded in cm with matching unit
	actual width: 1.3 ±0.1 (mm);		
	formula: magnification = <b>ST</b> ÷ width / 13 ÷ 1.3;		
	magnification calculation: ×10;		whole number answer required
		4	
(d) (i)	light has no or little effect on germination (of carrot seeds) / AW		A light is not a limiting factor for germination A light is not needed for germination
		1	
(ii)	repeat;		
	use more seeds;		I
	use seeds from same source or species;		
	both sets of seeds received water or kept moist after soaking / AW;		
	cover uncovered dish with transparent paper / AW;		
	count the number of seeds that germinated;		
	both sets kept at same temperature;		
	same humidity;		
	both in same air or amount of oxygen;		
	AVP;	may 1	
		[Total: 12]

3 (a)					
	feature	male	female		
	(end of) abdomen / body	rounded / blunt / AW	pointed / AW;		
		black / dark / AW	white / light / AW;		
		short / AW	long / AW;		
	bands / stripes	wide / AW	thin / AW;		
	(on abdomen / body) /AW	three or four / less	six or five / more;		A. comparative answers / presence or absence of features
		dark / black / AW	white / light /grey / AW;		A. round vs oval
	two correct feature	<u>two</u> correct features in first column; correct descriptions in each row, one mark each for any two descriptions:			
	correct description two descriptions;;				
	, "			max s	
(b)	one pair of antennae;			A compound eyes	
	wings;			2

(c)	indopondop	t variablo:						
(0)	Independen							
	different colours (of flowers / paper / AW);				A only two different colours / named colours			Irs
	controlled variables: (max 2)							
	similar flowers for shape / size / AW;				A same paper flowers /shapes			
	same type of attraction mechanism / scent / honey guides / nectar / same plant species;							
	same area (in open) / same number of bees and flies (if in enclosed chamber) / AW;							
	same time /	period;						
	method:							
	count / obse	erve / video	/ film / record the number of					
	visits / AW;							
	repeats / AV	N;						
	handling of data:							
	calculate av	erage / tall	y chart / graph / table / AW;					
	AVP; e.g. a	safety poir	nt with reference to bees	max 5
