MARK SCHEME for the October/November 2011 question paper

for the guidance of teachers

0452 ACCOUNTING

0452/12   Paper 1, maximum raw mark 120

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2011 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Answer must be expressed as a percentage with or without % sign
– answers expressed as decimals e.g. 0.2 (0.185) are not acceptable.

(c)

	Increase	Decrease	No effect
Percentage of gross profit to sales		✓ (2)	
Return on capital employed	✓ (2)		

[4]

(d) Yes (1)

Reasons:
1   Selling car parts and opening a workshop would increase Vasco's profits (1)
2   The percentage of gross profit to sales would increase as the profitability of selling parts
    is higher than selling fuel (1)   [3]
(Not possible to award marks for comments about return on capital as not known)
