## MARK SCHEME for the May/June 2012 question paper

## for the guidance of teachers

## 0610 BIOLOGY

0610/31

Paper 3 (Extended Theory), maximum raw mark 80

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

• Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2012 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

Question	Expected Answers		
1 (a)			
		function	letter
	peristalsis		В
	protein digestion		C / H / E ;
	insulin production	1	D ;
	deamination		J;
	partially digested	food is mixed with bile	Η;
	most water is rea	bsorbed	Ε;
(b) (i)		1	
	large molecule	nutrients absorbed	
	protein	amino acids ;	
	glycogen	Glucose / C <sub>6</sub> H <sub>12</sub> O <sub>6</sub> ;	
	fat	fatty acids <b>and</b> glycerol ;	
(ii)	calcium / Ca <sup>2+</sup> ;		
	iron / Fe <sup>2+</sup> ;		
(iii)	vitamins / named vitam	in ;

				IGCSE – May/June 2012	0610	31	
	(c)	MP1 MP2 MP3 MP4 MP5 MP6 MP7 MP8 MP9	thrombin / enzyme (converts) fibrinog soluble to insolubl mesh / network / v forms scab / harde phagocytes, engul cells divide by mite	en to fibrin ; e / fibrin is insoluble ; veb, to trap blood (cells) / prevent blood loss ; ens ; If / destroy / AW, bacteria / pathogens ;			
		MP10 MP11		nake / grow, epidermis / capillary / new skin ;			[max 5]
			<u> </u>				[Total: 16]
2	(a)	fur ; <u>mamm</u> sweat endoth differei	' external ear ; ary glands / secrete glands ; ermic / homoeother nt types of teeth ; le ear bones ;	es milk ; rmic / AW; <b>A</b> – warm blooded			[max 3]
	(b)	MP1 MP2 MP3 MP4 MP5 MP6 MP7 MP8 MP9 MP10	vasoconstriction ; fat under the skin fur / hair ; traps air ; fat / air, poor cond reduces heat loss by, conduction / co generate heat, by	ductors of heat / insulators ; ;			[max 5]
	(c)	group	of organisms of one	species;			
		live in t	the same place, at t	he same time / together ;			[2]

	Page 4	Mark Scheme: Teachers' version	Syllabus	Paper	
		IGCSE – May/June 2012	0610	31	
(d)	different species have di	fferent, genes / DNA ;			[1]
(e)	any two suitable sugges	tions, e.g.			
	maintaining, genetic dive important in food web;				
	possible medical applica	tion / useful genes ;			[max 2]
					[Total: 13]
3 (a)	K – plumule ; L – radicle ; M – cotyledon ;				
	$\mathbf{N}$ – testa ;				[4]
(b)	hypha(e);				[1]
(c)	MP5 substrate / starc MP6 (2) products (mo	zyme); mentary ; enzyme is lock ; n / nutrient, converted (into products) / AW ;			[max 4]
(d)	very little activity until da increase to day 11 / pea decrease to day 15 ; data quote with day <u>and</u>	k at day 11 ;			[max 3]
(e)		me activity in both pH ;	e, produced / availat	ole ;	[max 3]
	1				[Total: 15]
