

**MARK SCHEME for the May/June 2012 question paper  
for the guidance of teachers**

**9706 ACCOUNTING**

**9706/22**

Paper 2 (Structured Questions – Core),  
maximum raw mark 90

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- Cambridge will not enter into discussions or correspondence in connection with these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2012 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

(e) Use of estimated data which could be inaccurate, leading to under/over absorption.

Over-absorption, too much overhead charged to production, overpriced and uncompetitive, fall in demand and subsequent loss of revenue/reduction in profit.

Under-absorption, insufficient overhead charged to production, lower price to customer, costs not covered and subsequent reduction in profits.
